

# Astronauts as the artists of postal stamps

Haw it had begun...

From 11 to 15 of August of 1962 the Soviet "Vostok-3" and "Vostok-4" space craft have performed the first in the world group flight in outer space.

On 1962, August, 15 the "Pravda" newspaper published the poster displaying this event in symbolic form however the name of the author was not specified.

Instead of the name there was placed the following text: "One of the participants of the launching of this space craft sent the drawing which he has devoted outstanding event of nowadays – the group flight of the "Vostok-3" and "Vostok-4" the Soviet space craft".

The author of this poster was A.Leonov – prospective cosmonaut who has performed the first in the world walk in outer space on 1965 March, 18.

He had the ability to painting but he did not expect that his drawing will be the beginning of his new profession of the artist of the postal items.

On 1962, December, 28 the Post the North Vietnam issued the mint of three stamps devoted to this event and one of these stamps reproduced the poster published

by the "Pravda" newspaper. By such manner A.Leonov has become the first cosmonaut the author of the stamp.

The stamp issued by the Post of the North Vietnam by the picture of the poster devoted to "Vostok-3" and "Vostok-4" space craft flight.

Also imperforated same stamp has been issued by the rate 30000 copies. Special cancellation of the mint of these stamps was provided also on the day of putting them into circulation on 28.12.1962

After his fist space flight A.Leonov has designed the first stamps displaying the Earth from the space orbit, space fantastic paintings, the first international space flight "Apollo-Soyuz" fixed by the eyes of the artist from the Earth's orbit.

Some later next cosmonaut – V.Janibekov has joined to community of stamp artists-astronauts and continued designing the stamps by the persons who had happy possibility to see our planet from the Earth's orbit.

Displayed philatelic items accomplish all ones issued by the post administrations with participation of the astronauts.

## PLAN

## 1. COSMONAUT A.LEONOV IS THE FIRST ASTRONAUT ARTIST OF POSTAL STAMPS

### A.Leonov's drawings move on the post stamps again

100 Fr Guinea stamp in small sheet was issued by the cosmonaut A.Leonov genuine drawing which has been published in "Komsomolskaya Pravda" newspaper to display his imagination in what manner the person will make his first walk in outer space. A.Leonov has made this drawing by the request of the edition of this newspaper in advance to his space flight on 8.03.1965. In accordance to the program of that flight the first walk in outer space was the main task of it. On 18.03.1965 the first walk in outer space has been successfully performed.

This stamp exactly repeats A.Leonov's drawing including his inscription "Для Комсомолки" (For Komsomolskaya Pravda newspaper) made by his hand. The rate of imperforated sheets is 750 copies.

Genuine drawing has been made by the pencil in black-grey colors. PI
